## 5M Bariatric Alternating Pressure Cushion

5M alternating 2 cell air cushion suitable for very high-risk users. With an easy to use plug and play digital pump with visual low-pressure alarm warning. Suitable for bariatric use. The cover is vapour permeable, water resistant, a two-way stretch which conforms to the contours of the body. Complete with transport mode air lock function to also reduce risk to patient from power cuts for up to 24hrs.
