Standard Low Community Bed

It is an electrically adjustable wooden bed with adjustable back rest and foot rest sections. The easy to use handset features a safety stop mechanism to help prevent entrapment under the bed frame when lowering below 30cm. In order to continue lowering the bed to the optimum 10cm the user must press a separate button. In addition to an Auto-contour Chair function that allows for effortless positioning and prevents the patient sliding down the bed, the Apollo Super Low Single Panel also features auto-regression, ensuring minimum pressure is placed on the sacrum region when the bed is profiled. The Apollo Super Low also has the added benefit of an integral extending section that allows the bed platform to be increased in length by 15cm.

Rental Details;

Product Code	5MSTDLOW
SWL	180KG / 28 STONE
Headboard Height from Mattress plat.	83cm
Bed Dimensions	220x103cm
Mattress Platform Dimensions	198x88cm
Max Height	70cm
Low Height	10cm
