Bari Classic-Med Static Pressure Cushion

The Classic-Med Bari Cushion has been designed for heavier users considered to be at 'Medium to High Risk' of ulcer development.

Featuring a unique contoured pad, constructed from 'keyhole cut' castellated foam cells, combining a multi-stretch, vapour permeable, waterproof PU cover. The Classic-Med Bari Cushion cover is impregnated with anti-fresh biocide to help prevent the build up of bacteria, ensuring it can be easily cleaned to aid disinfection protocol. This cushion meets the everyday demands of hospital and care home environments.
